Data Flow Diagram

The Data Flow Diagram illustrates how user requests and FAQ data move through the **AI FAQ Assistant API**. The system receives requests from users, processes them through the Express.js API, stores information in MongoDB, and communicates with Google Gemini AI for AI-powered responses.

DFD Symbol Legend

Symbol	Name	Description
Oval / Rounded shape	External Entity	A person or system outside the project that sends or receives data.
Rectangle with numbered header	Process	An activity that processes or transforms incoming data.
Rectangle (solid fill, no number)	Data Store	A location where application data is stored for later use.
Labeled arrow	Data Flow	Shows the movement of data between entities, processes, and data stores. .

The diagram below illustrates how the symbols above come together to form a complete data flow diagram.
